(1) Upon submittal of the complete plan of operation and supporting information required by Rule R315-310, as determined by the Executive Secretary, a draft permit will be prepared and the owner or operator of the proposed facility will be notified in writing by the Executive Secretary.

(a) After meeting the requirements of the public comment period and public hearing as stipulated in Section R315-311-3, the owner or operator may be issued a permit which will include appropriate conditions and limitations on operation and types of waste to be accepted at the facility.

(b) Construction shall not begin prior to the receipt of the permit.

(c) An application that has been initiated by an owner or operator but left inactive by the applicant for more than one year shall be canceled.

(a) the adequacy of the facility in meeting the location standards in Section R315-302-1;

(b) the hydrology and geology of the area; and

(c) the adequacy of the plan of operation, facility design, and monitoring programs in meeting the requirements of the applicable rules.

(3) A permit can be granted for up to five years by the Executive Secretary. Each facility must apply for a permit renewal, as required by Section R315-310-9, 180 days before the expiration date of the current permit.

R315-311-2. Permit Modification, Renewal, or Termination.

(1) A permit may be considered for modification, renewal, or termination at the request of any interested person, including the permittee, or upon the Executive Secretary's initiative as a result of new information or changes in statutes or rules. Requests for modification, reissuance, or termination shall be submitted in writing to the Executive Secretary and shall contain facts or reasons supporting the request. Requests for permit modification, renewal, or termination shall become effective only upon approval by the Executive Secretary.

(viii) changes are made in the closure schedule for a unit, in the final closure schedule for the facility, or the closure period is extended;

(ix) the Executive Secretary determines, in the case of a permit transfer application, that no change in the permit other than the change in the name of the owner or operator is necessary;

(x) equipment is upgraded or replaced with functionally equivalent components;

(xi) changes are made in sampling or analysis methods, procedures, or schedules;

(xii) changes are made in quality control/quality assurance plans which will better certify that the specifications for construction, closure, sampling, or analysis will be met;

(2) An application for permit renewal shall consist of the information required by Section R315-310-9. Upon receipt of the application, the Executive Secretary will review the application and will notify the applicant as to what information or change of operational practice is required of the applicant, if any, to receive a permit renewal. The current permit shall remain in effect until issuance or denial of a new permit. Each permit renewal shall be subject to the public comment requirements of Section R315-311-3.
